and Physiology, Bangalore

Invitation

Dear friends,

The thirteenth biennial conference of Animal Nutrition Society of India (ANSI) on the theme **Diversification of Animal Nutrition Research in Changing Scenario** will be jointly organized by the Animal Nutrition Society of India and National Institute of Animal Nutrition and Physiology, Bangalore from 17-19th December 2009. The conference will focus on identification of national challenges in livestock nutrition and exploring methods and resources to combat them. Looking at the present scenario of animal production in India, an interaction amongst the scientists, teachers of animal nutrition and allied subjects, feed technologists and industrialists at three days conference will be certainly a positive step in that direction.

Animal Nutrition Society of India is an organization representing more than 800 life members from animal nutrition and allied disciplines which includes students, researchers, academia, industry and policy makers both at state and center. Established in 1982, ANSI has been serving the cause of livestock production in general and animal nutrition in particular through organization of national and regional conferences at regular intervals, publication of quarterly research journal **Indian Journal of Animal Nutrition** and recognition of scientific excellence through awards.

On behalf of the organizers of the conference, I extend you a hearty invitation to participate in the conference and contribute your might for facing the newer challenges of livestock production in India. I earnestly look forward and hope to meet you during the conference.

Kindly inform your participation in advance to the organizing secretary.

Dr. K.T. Sampath
President ANSI &
Director, NIANP, Bangalore

Organizing Committee

Chief Patron: Dr. K. M. Bujarbaruah , DDG (AS), ICAR, New Delhi

Patron: Dr. C.S. Prasad, ADG (AN&P), ICAR, New Delhi

Local Advisory Committee

Dr. N. Rajagopal, Director, AH&VS, Govt. Karnataka
Shri Ramalinge Gowda, MD, KMF, Bangalore
Dr. S. Yathiraj, Dean, Veterinary College, Bangalore
Dr. N. Rajeshwara Rao, Director, CPDO, Bangalore
Shri P.S. Nandakumar, MD, Komarla Feeds, Bangalore
Dr.G.Devegowda, Advisor, Nutritional Biotechnology
Dr. M.M. Kailas, Former Dean, Veterinary College, Bangalore
Dr. B.S.V.Reddy, Former Dean, Veterinary College, Bangalore
Dr. S. Kulkarni, Head, SRS of NDRI, Bangalore
Dr.U.Krishnamoorthy, Head, Animal Sci., Veterinary College, Bangalore
Dr. H.N. Nagabhushan, AGM, VHL, Bangalore
Shri B.S. Khanna, GM, NDDB, Bangalore

Local Organizing Committee

Chairman: Dr. K.T.Sampath
Secretary: Dr. S.Senani
Jt. Secretary: Dr. Raghavendra Bhatta
Jt. Secretary: Dr. N.K.S.Gowda

Members

Dr. Prakash Khandekar
Dr. J.P.Ravindra
Dr. (Mrs) Manpal Sridhar
Dr. K.S.Prasad
Dr. S.B.N. Rao
Dr. A.V.Elangovan
Dr. M. Chandrasekharaiah
Dr. A.K.Samanta
Dr. D.T. Pal
Shri S. Basavaraja
Dr. Subba Reddy (Komarla Feeds)

Theme of the Conference

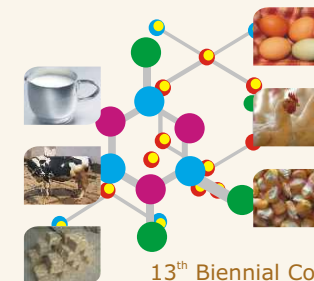

Livestock production contributes greatly to the sustenance and livelihood of farming community of the rural India. Even in the peri-urban areas livestock farming enterprises are gaining importance due to high demand of livestock products. Growth of Indian economy has given a new impetus to the growth of animal production system by increased purchasing power and health consciousness of the people. The demand for animal products is expected to increase by leaps and bounds in the coming decades. The animal production system is constrained by shrinking land, fodder and feed resources along with climate change to meet the burgeoning demands. The situation throws new challenges to produce quality high value livestock products using limited resources. The feeding system of the livestock has a regional bias for availability of feed resources and some how the balance of nutrients is skewed. The onus lies with the Animal Nutritionists, Physiologists, Biotechnologists, feed industry, farmers and farm managers to accept the challenge of producing high value animal products for the affluent urban consumers and also for the masses. This conference would bring all the stakeholders on a common platform to deliberate and design future action plan to meet these challenges:

Technical Sessions

1. Ruminant nutrition, production and environment
2. Designer animal products and health
3. Novel feed resources and supplements
4. Feed technology and its application
5. Nutritional Biotechnology
6. Poultry, pig, pet and aquatic nutrition
7. Research and industry interaction

Submission of Abstracts

Soft copies of the abstracts (not exceeding 250 words) of research papers may be submitted to the organizing secretary before 15th October 2009, in MS WORD, Times New Roman font size 12, title of abstract followed by names of authors with presenting author and corresponding author marked by single and double asterisk respectively; the abstract in a single paragraph with contents featuring a brief introduction, materials and methods, results and conclusions. Acceptance of the abstract and category, i.e., oral or poster will be communicated. The oral presentation should be prepared for 6 minutes duration (plus 2 min. discussion) on power point. Multimedia projector facility will be provided. Posters should be of the size 3' X 3'. Abstracts may be submitted to Dr S.Senani, Organizing Secretary, 13th Biennial Conference of ANSI, NIANP, Adugodi, Bangalore-560030 (nutricon2009@gmail.com), hard copies may be sent through proper channel.
